LATEST ENGLISH NEWS BY TELEGRAPH, VIA INDIA.

SERIOUS DIFFICULTY ARISEN BETWEEN ENGLAND AND THE NORTHERN STATES OF AMERICA. WAR NOT IMPROBABLE.

The export of saltpetre from Great Britain has been prohibited.

Great excitement prevails.

Consols are lower 1½ per cent.

Cotton one penny per lb. lower.

* * * POSTSCRIPT TO ABOVE TELEGRAM IS AS FOLLOWS:—Rumoured that war has actually been declared, but cannot vouch for the truth of it.

London, 26th November.

The Australian September mails were delivered in London on 14th and 19th November.

There had been several violent gales on the English and Irish coasts, and the Channel, and more are foretold. Heavy disasters are reported from sea. Four large steamers were wrecked.

Great excitement has been created at Southampton by the arrival there of the Confederate war-steamer Nashville, with the crew of a prize, the Harvey Birch, that she had destroyed in the British Channel.

It is supposed that the neutrality of England will be violated if the Nashville is permitted to refit at Southampton, although a Federal war-steamer put into the same port three weeks before, and underwent the needful overhaul.

The rate of insurance on American ships has been greatly raised in consequence.

THE NEUTRALITY QUESTION.

The *Steamer* reports that a United States war-steamer ran into Southampton Water, to refit nominally—really, as it is averred, to seize the West India mail steamer then due, and supposed to have on board Mr. Slidell and Mr. Mason, Confederate commissioners, who were contraband of war.

The mail steamer came two days before she was due, and thus escaped the fate intended for her. Communications then took place between our Government and the American Minister, in which the latter disclaims any intention such as that imputed to the proceedings of the United States steamer; or rather, he disclaims any knowledge of the matter. The United States steamer has now departed, but is supposed to be cruising off the Irish coast for purposes similar to those which brought her to Southampton.

It is reported on board the Benares that the West India mail steamer *La Plata* was boarded and seized by an American war-steamer, called the *James Adger*, and the commissioners taken prisoner.

A feeling of hostility has been engendered in Canada, in consequence of the outrageous language which has recently been held by the United States in reference to England.

The new Governors of South Australia and Western Australia have sailed from England—the former in the *Suffolk*, and the latter in the *Strathallen*.

A house of seven stories, in Edinburgh, has fallen to the ground, killing upwards of twenty people and injuring twelve others.

A new and vigorous National Reform Association instituted at Leeds.

The spinners throughout the Lancashire districts are making experiments for carrying out the manufacture of Indian cotton.

OBITUARY.

General Sir H. Douglas, Sir John Forde, M.D., Mr. Duncan, Mrs. M. Geoffrey de Saint Hillaire, and the King of Portugal.

AMERICA.

On the Potomac, the two armies, under Generals McLean and Beauregard, each numbering about 250,000 men, still face each other, and do nothing. Not a single incident worth reporting has occurred in this quarter, excepting a disastrous and disgraceful defeat of a body of Federals near Leesburg, which is called the Battle on the Bull.

The Federal naval expedition has captured Fort Royal after a bombardment, and landed 15,000 men at Beaufort, in South Carolina—the town and neighbouring plantations having previously been destroyed by the Confederates.

On the Lower Potomac the Confederates have withdrawn a large portion of their force; therefore the protection of the South is threatened by the Federals.

Two engagements have taken place at Belmont, in Missouri; the Federals losing from 300 to 500, and the Confederates also suffering severely.

General Scott has retired from the command-in-chief of the Federal forces, and has arrived in England—General McLean having assumed the chief command.

400 Confederates are said to have been killed

and 1000 taken prisoners in an engagement in Kentucky.

The Federal Government are preparing another naval expedition, having for its objects—first, to carry the war into the cotton States, which are chiefly responsible for the rebellion, and by doing so to produce the disorganization and dispersion of the immense rebel army now collected in Virginia; second, to secure winter quarters for troops, and harbours of refuge for the naval and mercantile marine; third, to open one or more Southern ports to commerce, and thus satisfy all demands, and obviate all difficulties about the supply of cotton and the efficacy of the blockade; and fourth, to form a nucleus in those rebel States, near which the long supposed loyalty and good sense of the people may find safe and appropriate expression, and to encourage and stimulate the reactionary feeling, of which a remarkable and encouraging manifestation was made in North Carolina.

FOREIGN NEWS.

FRANCE.

The great event of the month in France has been the announcement by the Government of its financial difficulties. The deficit acknowledged is not less than forty millions sterling. The Italian Parliament reassembled on the 20th November, and the final propositions made to the Pope, and rejected by him, have been communicated to the Chamber.

The Pope is empowered to send Nuncios to communicate with the bishops of the faithful, and to convene synods and councils without the intervention of the Government.
